PORT ROYAL WETLANDS

GREG'S WOODS PRESERVE

The 33-acre Greg's Woods Preserve was donated to Central Pennsylvania Conservancy by Beverly and Robert Grening in 1996, in memory of their son Gregory Alan Grening. A small garden at the front of the property invites visitors to a short unpaved trail, which provides views of diverse flora and fauna, sprawling wetlands, and mature oak-hickory forest.

PORT ROYAL WETLANDS

The 14-acre Port Royal Wetlands were preserved by Central Pennsylvania Conservancy in 2003 as part of a restoration project targeting the surrounding Cedar Spring Run wetland complex. This preserve features a series of shallow wetland pools, a meadow, and riparian forest habitat, all visible from a quarter-mile unpaved trail.

GET INVOLVED. BECOME A VOLUNTEER.

The Port Royal Wetlands is maintained by volunteers so that it remains an enjoyable public space for all. Contact us today to become a volunteer!

SUPPORT

Since 1982, Central Pennsylvania Conservancy's mission has been to acquire, preserve, and protect natural lands and resources in South-Central Pennsylvania.

As of 2026, over 7,000 acres have been protected thanks to community support. Give today to support our ongoing land protection efforts.
